REQUIRED Applicant shall submit a site plan or survey, drawn to scale, of the proposed fence including:

- Size of the lot, location of house, garage, other structures, driveways, and abutting streets.
- Height and location of the proposed fence in relationship to property lines, and utility or other easements.
- All neighbor improvements within five feet of the proposed fence.

Type of Work: New Replacement **Project Cost:** \$ _____

Will this fence enclose a pool? Yes No

Type of Use: 1-Family or 2-Family Multi-Family Commercial/Institutional Industrial

Fence Material: Aluminum Brick Chain Link Concrete Vinyl Wood
 Iron Other _____

Height:Front Yard: _____ **Rear Yard:** _____ **Side Yards:** _____ / _____

MINIMUM FENCE REQUIREMENTS

1. No fence or portion of a fence shall be constructed within the front yard of a building unless it is a decorative fence. A decorative fence cannot exceed a height of 36 inches from ground level; cannot be made of wire, metal, chain or poured concrete; and shall be constructed in a substantially open pattern (such as a weave or board-and-space pattern) and not a solid pattern (such as a block, concrete, or a privacy pattern).
2. Fences are permitted on the property lines in all districts, except a fence in the front yard can be no closer than two feet to any public right-of-way. Fences cannot encroach into the public right-of-way or neighboring properties.
3. Residential fences shall not exceed a height of six feet in the side and rear yards. Security fences are not allowed in residential districts, shall not exceed ten feet in height, and shall be of an open type similar to woven wire or wrought iron fencing.
4. No fence shall be constructed which is a picket fence or which is of an otherwise dangerous condition, or which conducts electricity or is designed to electrically shock or which uses barbed wire; provided, however, that barbed wire may be used in industrially-zoned areas if the devices securing the barbed wire to the fence are ten feet above the ground or higher and project toward the fenced property and away from any public area.
5. All fences shall be maintained and kept safe and in a state of good repair, and the finished side or decorative side of a fence shall face adjoining property. Fences shall be maintained to preserve the required vision clearance at driveways and intersections. Fences in easement areas will be removed by the property owner or at the owner's expense.

I am applying for a permit to install a fence, as described above. I certify the information on this application is complete and accurate. I agree to comply with all applicable codes of the Village of Cleveland and with any conditions attached to this application and permit. I understand that issuance of this permit creates no legal liability, express or implied, of the Village or Inspector.
