

# JARROD JACKETT

750 Wilson Ave

## **Why are you running for office?**

As an adult I feel now is my opportunity to help grow the community I grew up in.

## **What is your relevant experience?**

My career requires me to work independently to complete research that contributes to overall team decisions in an effort to better customer experience and meet regulations.

## **What is the most important issue you want to address?**

Communication between those who work for the village and its residents.

## **How would you approach addressing the issue you identified as most important?**

I believe the village board works for the people of the community. If the board doesn't know what the community is asking for or the community doesn't know the efforts being addressed by the board, success will be limited.

## **What makes you the best candidate?**

37 year village resident, LTC alumni, current Cleveland Fish and Game member, former Cleveland Fire Department and Cleveland Snohawks member.
